Objective

I am a dedicated and hardworking student who is excited to use my programming skills and competences in developing web technologies. I am actively seeking entry level position that will allow my academic expertise to be used in the area of software development

Education

- Kerala Technological University** 2020-2024
BTech Information Technology
6.8 (CGPA)
- Board of Higher secondary education** 2018-2020
Computer Science
83.75
- Central Board of Secondary Education** 2017-2018
Senior Secondary
78.6

Skills

- HTML, CSS, SQL, Python,
- Communication
- C, C++

Projects

- Connecting local workers**
The main objective is easiness of finding the service provider . A website where local workers lend their services to the public. It also allows the customers to browse through a wide range of local service providers and directly book services according to their availability.
Languages used: HTML, CSS, JavaScript (frontend)
PHP(backend)
(**Internship:** The same project was done as a 2 week internship at Dinesh IT System Kannur)
- CardioAlert: Remote Heart Monitoring**
Predict and detect heart attack at home using wrist band. Once the device is set up, the sensor initiates continuous monitoring of heartbeat and can be viewed on the website and the patient is warned about the variations in heartbeat. An alert message is sent to the patient as well as to the added contacts when the patient is at danger.
Languages used: HTML, CSS, JavaScript (frontend)
SQL(backend)

Certifications

- Python for Data Science**
Attended an online course(NPTEL) in Python for Data Science, gained knowledge about different python IDEs and basic libraries. Also about the data science concepts such as Classification and Regression

Seminar

- **Experiential Learning through Mobile Augmented Reality**

The main objective is to provide AR learning system by combining multimodal inputs to improve learning effectiveness. Speech with gesture control, speech with face detection and speech with spatial awareness were used as input.

Achievements & Awards

- Web development internship at Dinesh IT systems
- Basic Web Designing program by Pygrammers
- Cyber Security hackathon conducted by GTec
- NSS volunteer

Languages

- English
- Malayalam
- Hindi

Others

- **Date of Birth** :29/05/2002
- **Nationality**: Indian
