## PROFESSIONAL SUMMARY

B.Tech Computer Science graduate (2024) with strong hands-on experience in Embedded C and C++. Skilled in IPC mechanisms, socket programming, client-server communication, and data compression techniques. Interested in embedded systems and system-level programming.

## TECHNICAL SKILLS

- Programming Languages: C, C++
- Embedded Systems: Embedded C, Microcontroller Basics
- Operating Systems: Linux (Processes, IPC, Signals)
- IPC: Shared Memory, Message Queues, Semaphores, Pipes
- Networking: Socket Programming, TCP/IP
- Tools: GCC, GDB, Makefile, Linux Terminal

## PROJECTS

### Multiple Data Compression System

- Developed a data compression application using C/C++
- Optimized file size and improved data storage efficiency
- Worked with low-level memory and file handling

### Client-Server Interaction Using IPC

- Implemented client-server communication using Linux IPC mechanisms
- Used shared memory, message queues, and semaphores for synchronization
- Improved reliability of inter-process communication

### Two-Way Chat Application Using Socket Programming

- Built a two-way chat system using TCP socket programming
- Enabled real-time communication between client and server
- Handled errors and multiple connections efficiently

## EDUCATION

Bachelor of Technology (B.Tech) – Computer Science & Engineering  
Ganga Institute Of Technology And Management | 2021 – 2024

Diploma -Aditya Institute Of Technology And Management 2018
